INDEX

ACID-BASE equilibrium after epinephrectomy, 679.

ADOLPH, E. F. and G. ERICSON Pituitrin and diuresis in man, 377.

Adrenal cortex, 641, 658.

—— gland, effect of feeding, to pigeons, 135.

—— insufficiency, 508.

—— secretion and chemical control of body temperature, 466.

Adrenalin, action of, on frog's kidney, 410.

Alkaloids of Ceanthus, effect of, on blood clotting, 545.

Amino acids, intravenous administration of, 559.

Anemia, blood regeneration in, 260, 271, 280.

AUB, J. C., M. R. EVERETT and J. FINE. The intravenous administration of amino acids to decerebrate and urethanized cats, 559.

AUSTIN, W. C. See MATTHEWS and AUSTIN, 708.

Autolysis, 1, 9.

BARLOW, O. W. The effects produced on the weight, respiration and temperature by adding desiccated whole adrenal gland and desiccated adrenal cortex to the diets of normal pigeons, 135.

BARNWELL, J. B. See RICHARDS, BARNWELL and BRADLEY, 410.

Basal metabolism in New Orleans, 221.

Bile flow, regulation of, 130.

Bile-salt hemolysis, 297.

Blood calcium level and tolerance to magnesium, 708.

——, capacity of, to absorb CO_2, 91.

—— changes after epinephrectomy, 666.

—— clotting, effect of alkaloids of Ceanthus on, 545.

—— pressure, glomerular, in frog kidney, 389.

Blood pressure, pulse and physical efficiency test, 112.

—— regeneration in anemia, 260, 271, 280.

—— solutions, spectrophotometric study of, 346.

—— sugar after ligation of hepatic artery, 689.

——, volume-flow of, continuous records of, 61.

Bone, deposition and resorption of, 694.

BORGSTROM, P. and R. W. BOST. Study of the protein intake as indicated by urinary nitrogen, 229.

——, R. W. BOST and R. HAFKESBRING. Dietary studies in New Orleans in 1925, 237.

——, R. HAFKESBRING and R. W. BOST. Effect of increased diet on basal metabolism in New Orleans, 245.

BORGSTROM, P. See BOST and BORGSTROM, 242.

——. See HAFKESBRING and BORGSTROM, 221.

BOST, R. W. and P. BORGSTROM. Cutaneous excretion of nitrogenous material in New Orleans, 242.

——. See BORGSTROM and BOST, 229.

——. See BORGSTROM, BOST and HAFKESBRING, 237.

——. See BORGSTROM, HAFKESBRING and BOST, 245.

BOURQUIN, H. Studies on diabetes insipidus. I, 362.

BRADLEY, R. C. See RICHARDS, BARNWELL and BRADLEY, 410.

BRIGHT, E. M. See CANNON, QUERIDO, BRITTON and BRIGHT, 466.

BRITTON, S. W. See CANNON and BRITTON, 433.

——. See CANNON, QUERIDO, BRITTON and BRIGHT, 466.

BRONK, D. W. See GESELL and BRONK, 61.

Burget, G. E. The regulation of the flow of bile. II. Effect of eliminating the sphincter of Oddi, 130.
Byron, C. S. See Collens, Shelling and Byron, 689.

Calcification studies, 615, 626.
Cannon, W. B. and S. W. Britton. Studies on the conditions of activity in endocrine glands. XX. The influence of motion and emotion on medulliadrenal secretion, 433.
——, A. Querido, S. W. Britton and E. M. Bright. Studies on the conditions of activity in endocrine glands. XXI. The rôle of adrenal secretion in the chemical control of body temperature, 466.
Caylor, H. D. and C. F. Schlotthauer. Cretinism and myxedema produced experimentally in swine, 141.
Citric acid metabolism, 321.
Collens, W. S., D. H. Shelling and C. S. Bryon. Studies on the physiology of the liver. II. Effect of adrenalin upon blood sugar following ligation of the hepatic artery, 689.
Corey, E. L. The effect of forcing fluids upon survival after bilateral epinephrectomy, 633.
Cowgill, G. R. Vitamin B in commerical meat residue and commercial egg albumen, 341.
Cretinism and myxedema, experimental, in swine, 141.
Crisler, G. See Kleitman and Crisler, 571.
Croxford, G. See Truesdell and Croxford, 112.

Diabetes insipidus, 362.
——, pancreatic, and pregnancy, 553.
Dietary studies in New Orleans, 237.
Digestion, auto, 1, 9.
Diuresis in man, pituitrin and, 377.
Diuretic-antidiuretic action of pituitary extract, 289.
Donnelly, J. L. and A. G. Mitchell. Studies on bile-salt hemolysis. I. The fixation of bile-salts by serum as an absorption phenomenon, 297.
Dougherty, J. E. Studies in incubation. I. The effect of low temperatures previous to incubation on hatchability of eggs set, 39.
Dyes, deposition of, in renal tubule, 149.

Eisenman, A. J. See Swingle and Eisenman, 679.
Endocrine glands, conditions of activity in, 433, 466.
Epinephrectomy, acid-base equilibrium after, 679.
——, blood changes after, 666.
——, fluid intake and survival after, 633.
——, prolongation of life after, 658.
Ericson, G. See Adolph and Ericson, 377.
Everett, M. R. See Aub, Everett and Fine, 559.

Fernando, F. See Necheles and Fernando, 9.
——. See Necheles, Ling and Fernando, 1.
Fertility in rat, Vitamins B and E and, 305.
Fine, J. See Aub, Everett and Fine, 559.
Fluid intake and survival after epinephrectomy, 633.

Gesell, R. and D. W. Bronk. The regulation of respiration. V. A continuous thermoelectric method of recording the volume-flow of blood, 61.
—— and D. A. McGinty. The regulation of respiration. VI. Continuous electrometric methods of recording changes in expired carbon dioxide and oxygen, 72.
Gestation in rat, effect of injecting anterior hypophysial fluid on, 170.
Glomerular capillary pressure in frog kidney, 389.
Goodale, H. D. Early growth rates of chickens with special reference to ultra-violet light, 44.
Growth, activity and, effect of luxus consumption of meat on, 206.
—— and carbohydrate feeding, 537.

Growth and lactose feeding, 542.
—— of chickens and ultra-violet light, 44.

HAFKESBRING, R. and P. Borgstrom. Studies of basal metabolism in New Orleans, 221.
——. See Borgstrom, Bost and Hafkesbring, 237.
——. See Borgstrom, Hafkesbring and Bost, 245.
Hayman, J. M., Jr. Estimations of afferent arteriole and glomerular capillary pressures in the frog kidney, 389.
—— and A. N. Richards. Deposition of dyes, iron and urea in the cells of a renal tubule after their injection into its lumen; glomerular elimination of the same substances, 149.
Heart strips, non-rhythmic, metabolic gradient of, 119.
——, turtle, regional gradient of, 126.
Heat production in smooth muscle, 719.
Hemolysis, bile-salt, 297.
Hepatic artery, blood sugar after ligation of, 689.
Hitchcock, F. A. The effect of the luxus consumption of meat upon the voluntary activity and growth of the albino rat, 206.
——. The effect of meat feeding on nursing mother rats and the rate of growth of their litters, 218.
Hou, H. C. Intragastric leucopedesis, 28.
Howard, R. L. and T. Sollmann. The metabolic gradient of non-rhythmic strips from different levels of the turtle heart, 119.
—— —— ——. The regional gradient of the turtle heart: isotonic sucrose solution on tone, rhythm and contractility, 126.
Hypophysial fluid, anterior, effects of, on gestation in rat, 170.
—— ——, ——, effect of, on production of placentomata in rats, 184.

INTRAVENOUS administration of amino acids, 559.

JONES, M. R. Studies on inorganic salt metabolism in dogs. III. On certain factors which influence the deposition and resorption of bone, 694.

KENNEDY, R. P. A spectrophotometric study of blood solutions, 346.
Kidney, frog, action of adrenalin on, 410.
——, ——, glomerular capillary pressure in, 389.
——, ——, perfusion of, 419.
Kleitman, N. and G. Crisler. A quantitative study of a salivary conditioned reflex, 571.
Krawetz, J. See Tharaldsen and Krawetz, 545.

LACTATION, effect of meat in diet on, 316.
Leucopedesis, intragastric, 28.
Light, ultra-violet, early growth of chickens and, 44.
Ling, J. See Necheles, Ling and Fernando, 1.
Liver, physiology of, 689.

MacLEOD, F. L. The effect on reproduction and lactation of differing proportions of meat in a mixed diet, 316.
Magnesium, blood calcium level and tolerance to, 708.
—— chloride, prevention of tetany by, 100.
Markowitz, J. and S. Soskin. Pancreatic diabetes and pregnancy, 553.
Maternal efficiency, effect of meat feeding on, 218.
Matthews, S. A. and W. C. Austin. The effect of the blood calcium level on the tolerance to magnesium, 708.
Mattill, H. A. The relation of vitamins B and E to fertility in the male rat, 305.
Maynard, L. A. and R. C. Miller. Calcification studies with pigs fed different protein supplements, 615.

MAYNARD, L. A. See MILLER and MAYNARD, 626.
McGINTY, D. A. See GESELL and McGINTY, 72.
Meat, effect of luxus consumption of, on activity and growth, 206.
—— feeding, effect of, on maternal efficiency, 218.
—— in diet, effect of, on reproduction and lactation, 316.
Medulliadrenal secretion, influence of motion and emotion on, 433.
Metabolic gradient of non-rhythmic heart strips, 119.
Metabolism, basal, effect of increased diet on, in New Orleans, 245.
——, citric acid, 321.
——, inorganic salt, in dogs, 694.
MILLER, H. G. Vitamin B requirements for successful reproduction and rearing of the young, 255.
MILLER, R. C. and L. A. MAYNARD. Calcification studies with rats fed menhaden oil and various menhaden fish meals, 626.
——. See MAYNARD and MILLER, 615.
MITCHELL, A. G. See DONNELLY and MITCHELL, 297.

CONTENTS

No. 1. December, 1926

Studies on Auto-Digestion. I. The Fate of Organs Implanted into the Duodenum. *H. Necheles, J. Ling and F. Fernando* 1
Studies on Auto-Digestion. II. The Rôle of Trypsin and "Antitrypsin." *H. Necheles and F. Fernando* 9
Intragastric Leucopedesis. *H. C. Hou* 28
Studies in Incubation. I. The Effect of Low Temperatures Previous to Incubation on Hatchability of Eggs Set. *J. E. Dougherty* 39
Early Growth Rates of Chickens with Special Reference to Ultra-Violet Light. *H. D. Goodale* 44
The Regulation of Respiration. V. A Continuous Thermo-Electric Method of Recording the Volume-Flow of Blood. *Robert Gesell and Detlev W. Bronk* 61
The Regulation of Respiration. VI. Continuous Electrometric Methods of Recording Changes in Expired Carbon Dioxide and Oxygen. *Robert Gesell and Daniel A. McGinty with the assistance of John W. Bean* 72
The Comparative Capacity of the Blood and of the Tissue to Absorb Carbonic Acid. *Louis A. Shaw* 91
On the Mechanism of Prevention of Fatal Parathyroid Tetany by the Oral Administration of Magnesium Chloride. *J. H. Sloan* 100
Periodic Variations in Blood Pressure Pulse and the Physical Efficiency Test. *Dorothy Truesdell and Geneva Croxford* 112
The Metabolic Gradient of Non-Rhythmic Strips from Different Levels of the Turtle Heart. *Robert L. Howard and Torald Sollmann* 119
The Regional Gradient of the Turtle Heart: Isotonic Sucrose Solution on Tone, Rhythm and Contractility. *Robert L. Howard and Torald Sollmann* 126
The Regulation of the Flow of Bile. II. Effect of Eliminating the Sphincter of Oddi. *G. E. Burget* 130
The Effects Produced on the Weight, Respiration and Temperature by Adding Desiccated Whole Adrenal Gland and Desiccated Adrenal Cortex to the Diets of Normal Pigeons. *O. W. Barlow* 135
Cretinism and Myxedema Produced Experimentally in Swine. *Harold D. Caylor and Carl F. Schlotthauer* 141
Deposition of Dyes, Iron and Urea in the Cells of a Renal Tubule after Their Injection into Its Lumen: Glomerular Elimination of the Same Substances. *J. M. Hayman, Jr. and A. N. Richards* 149
The Effects of Injecting Anterior Hypophysial Fluid on the Course of Gestation in the Rat. *Harold M. Teel* 170
The Effects of Injecting Anterior Hypophysial Fluid on the Production of Placentomata in Rats. *Harold M. Teel* 184
Superimposed Respirations or Cheyne-Stokes Breathing of Amphibious and Non-Amphibious Mammals. *P. F. Swindle* 188

The Effect of the Luxus Consumption of Meat upon the Voluntary Activity and Growth of the Albino Rat. *F. A. Hitchcock* 206
The Effect of Meat Feeding on Nursing Mother Rats and the Rate of Growth of Their Litters. *F. A. Hitchcock* 218
Studies of Basal Metabolism in New Orleans. *R. Hafkesbring and P. Borgstrom* 221
Study of the Protein Intake as Indicated by Urinary Nitrogen. *P. Borgstrom and R. W. Bost* 229
Dietary Studies in New Orleans in 1925. *P. Borgstrom, R. W. Bost and R. Hafkesbring* 237
Cutaneous Excretion of Nitrogenous Material in New Orleans. *R. W. Bost and P. Borgstrom* 242
Effect of Increased Diet on Basal Metabolism in New Orleans. *P. Borgstrom, R. Hafkesbring and R. W. Bost* 245

No. 2. January, 1927

Vitamin B Requirements for Successful Reproduction and Rearing of the Young. *Harry G. Miller* 255
Blood Regeneration in Severe Anemia. V. Influence of Striated and Smooth Muscle Feeding. *G. W. Whipple and F. S. Robscheit-Robbins* ... 260
Blood Regeneration in Severe Anemia. VI. Influence of Kidney, Chicken and Fish Livers, and Whole Fish. *F. S. Robscheit-Robbins and G. H. Whipple* 271
Blood Regeneration in Severe Anemia. VII. Influence of Dairy Products on Hemoglobin Production. *G. H. Whipple and F. S. Robscheit-Robbins* 280
The Diuretic-Antidiuretic Action of Pituitary Extract. *Raymond L. Stehle* 289
Studies on Bile-Salt Hemolysis. I. The Fixation of Bile-Salts by Serum as an Absorption Phenomenon. *Joseph L. Donnelly and A. Graeme Mitchell* 297
The Relation of Vitamins B and E to Fertility in the Male Rat. *H. A. Mattill* 305
The Effect on Reproduction and Lactation of Differing Proportions of Meat in a Mixed Diet. *Florence L. MacLeod* 316
Citric Acid Metabolism as Indicated by Urinary Examination. *E. B. Woods* 321
Vitamin B in Commercial Meat Residue and Commercial Egg Albumin. *George R. Cowgill* 341
A Spectrophotometric Study of Blood Solutions. *Robert P. Kennedy* 346
Studies on Diabetes Insipidus. I. *Helen Bourquin with the assistance of Lewis C. Benesh and Marwin O. Lanam* 362
